

Fast & Accurate

This pocket digital pit gauge is designed based on a digital Indicator with a direct reading and clear view for inspectors.

Made of hardened stainless steel

0.050" diameter probe

Can zero at any position

Button to switch between inches and mm

Features

Featuring a two-side versatile and reversible measuring blades

for measurements on flat surfaces and compound curvatures.

Technical Data

Model Code	E-DPG-P1
Range	0-12.7mm
Resolution	0.01mm
Accuracy	0.03mm
Measuring Speed	≤ 1.5 m/sec
Working Temperature	0-40 °C
Working Relative Humidity	≤ 80%
Storage Temperature	-10-60 °C
Power	Button Battery 1.55 V

Unit: MM
