

# SAFETY DATA SHEET

### 1. Identification

Product identifier Other means of identification Recommended use	MI-GLOW <sup>®</sup> 800L Not available. Non-destructive testing.
Recommended restrictions	None known.
Manufacturer / Importer / Supplier / Distributor information	
Company name	Circle Systems, Inc.
Address	1210 Osborne Road
	Saint Marys, GA 31558
Telephone E-mail	912-729-2735 customerservice@circlesafe.com
Emergency phone number	Chem-Tel 800-255-3924 (US and Canada); + 1-813-248-0585 (International)

### 2. Hazard(s) identification

Health hazards	Aspiration hazard	Category 1
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Danger	
Hazard statement	May be fatal if swallowed and enters airways.	
Precautionary statement		
Prevention	Keep away from heat/sparks/open flames/hot s well-ventilated area. Avoid release to the enviro	surfaces No smoking. Use only outdoors or in a onment.
Response		doctor. If inhaled: Remove person to fresh air and center/doctor if you feel unwell. Do NOT induce
Storage	Store locked up.	
Disposal	Dispose of contents/container in accordance w	vith local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	Not classified.	

### 3. Composition/information on ingredients

Chemical name	CAS number	%
Distillates (petroleum), Hydrotreated Light	64742-47-8	>95

Inhalation	If symptoms develop move victim to fresh air. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.

Eye contact	Rinse with water. Get medical attention if irritation develops and persists.
Ingestion	Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.
Most important symptoms/effects, acute and delayed Indication of immediate medical attention and special treatment needed	Diarrhea. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of eyes and mucous membranes. Irritation of nose and throat. Aspiration may cause pulmonary edema and pneumonitis. Skin irritation. Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures	5
Suitable extinguishing media	Water fog. Dry chemical powder. Dry chemicals. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment/instructions	Not applicable.
Specific methods	Not applicable.
General fire hazards	NFPA Class IIIB combustible liquid.

6. Accidental release measures	
Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep upwind. Keep out of low areas. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	Refer to attached safety data sheets and/or instructions for use. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. The product is immiscible with water and will spread on the water surface. Stop leak if you can do so without risk. Move the container to a safe and open area if the leak is irreparable. Use water spray to reduce vapors or divert vapor cloud drift. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Inform appropriate managerial or supervisory personnel of all environmental releases.
7. Handling and storage	
Precautions for safe handling	Do not smoke while using. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. Ground and bond containers when transferring material. Use only in well-ventilated areas. Do not re-use empty containers. Avoid breathing mist or vapor. Avoid prolonged or repeated contact with skin.
Conditions for safe storage, including any incompatibilities	Ambient temperature and pressure.
	Do not handle or store near an open flame, heat or other sources of ignition. Store away from incompatible materials (see Section 10 of the SDS).

### 8. Exposure controls/personal protection

#### Occupational exposure limits

#### **US NIOSH: Pocket Guide to Chemical Hazards**

US NIUSH: POCKET Guide to	Chemical Hazarus	
Components	Туре	Value
Distillates (petroleum), Hydrotreated Light (CAS 64742-47-8)	TWA	100 mg/m3
Biological limit values	No biological exposure limits noted	for the ingredient(s).
Appropriate engineering controls	should be matched to conditions. If or other engineering controls to ma	10 air changes per hour) should be used. Ventilation rates applicable, use process enclosures, local exhaust ventilation, intain airborne levels below recommended exposure limits. If blished, maintain airborne levels to an acceptable level.
Individual protection measure Eye/face protection	es, such as personal protective eque Chemical respirator with organic va	
Skin protection		
Hand protection	Wear appropriate chemical resistar	nt gloves.
Other	Wear suitable protective clothing.	
Respiratory protection Thermal hazards		Ily required except in emergencies or when conditions cause vapors – then use a chemical respirator with organic vapor e clothing, when necessary.
General hygiene considerations	When using, do not smoke. Always	observe good personal hygiene measures, such as washing ore eating, drinking, and/or smoking. Routinely wash work

### 9. Physical and chemical properties

err nyelear and enerniear p	
Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Dark Green.
Odor	Slight petroleum odor.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	<-68°C, <-90.°F
Initial boiling point and boiling range	239-276°C, 464-528°F
Flash point	109 °C (229 °F)
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or exp	losive limits
Flammability limit – lower (%)	1.2%
Flammability limit – upper (%)	6%
Explosive limit – lower (%)	Not available.
Explosive limit – upper (%)	Not available.
Vapor pressure	0.02 mm Hg @ 20 °C (68°F)
Vapor density	6.7
Solubility(ies)	Insoluble in water.
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	216°C,421°F
Decomposition temperature	Not available.

Viscosity	4.1cSt @ 20°C, 68°F
Other information	
VOC (Weight %)	815-821 g/l

10. Stability and reactivity	
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions Conditions to avoid	No dangerous reaction known under conditions of normal use. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known. Hazardous gases and vapors produced in fire are oxides of carbon.

# 11. Toxicological information

Γ

Information on likely routes of exposure	
Ingestion	Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. Expected to be a low ingestion hazard.
Inhalation	May cause drowsiness and dizziness. Headache. Nausea, vomiting. May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	May cause skin irritation.
Eye contact	Causes eye irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Diarrhea. May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of nose and throat. Aspiration may cause pulmonary edema and pneumonitis. Irritation of eyes and mucous membranes. Skin irritation.

#### Information on toxicological effects

Acute toxicity	May be fatal if swallowed and enters airways. Narcotic effects.		
Components	Species	Test Results	
Distillates (petroleum), Hydrotrea	ated Light (CAS 64742-47-8)		
Acute			
Dermal			
LD50	Rabbit	> 2000 mg/kg, bw	
Inhalation			
LC50	Rat	> 5.28 mg/l, 4 hours	
Oral			
LD50	Rat	> 5000 mg/kg, bw	
Skin corrosion/irritation	Prolonged skin contact may caus	Prolonged skin contact may cause temporary irritation.	
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.		
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not considered to	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.	
OSHA Specifically Regulat	ed Substances (29 CFR 1910.1001-	1050)	
Not listed.			
Reproductive toxicity	Not expected to be a reproductiv	Not expected to be a reproductive hazard.	
Specific target organ toxicity - single exposure	May cause drowsiness and dizziness.		
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	May be fatal if swallowed and en	May be fatal if swallowed and enters airways.	
Chronic effects	ffects Prolonged inhalation may be harmful.		

12. Ecological informa							
Ecotoxicity	Toxic to aq	uatic life.					
Persistence and degradabi	•	No data is available on the degradability of this product.					
Bioaccumulative potential	No data ava	ailable.					
Mobility in soil	No data ava	ailable.					
Other adverse effects				e depletion, photochemic ential) are expected from			
13. Disposal considera	ations						
Disposal instructions Waste from residues / unus products	contents/co sed Dispose of	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations. Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:					
products		product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
