

DCx13-3

Ex Digital Camera

<https://www.bergeng.com/product/DCx13-3.html>

13MP portable digital camera with flash, touchscreen, digital zoom, 64GB onboard memory, movie and still image capture

The DCx13-3 represents a significant step forward in ATEX certified digital camera technology. Incorporating a custom designed hardware running Android™ OS, the intrinsically secure DCx13-3 provides high quality image capture in potentially hazardous (explosive) atmospheres whilst protecting your sites safety & integrity.

Parallel operating modes allow image capture with gloves and in harsh conditions using traditional pushbuttons with camera settings and functionality provided by the large 116mm (4.6") touchscreen. Battery charging and image download is performed via a high speed, intrinsically secure USB link which prevents wireless related data security breaches.

Key Features:

- 13MP sensor with automatic and manually directed motorised focus for crisp image capture
- Charging, image and data transfer via Intrinsically secure wired USB datalink
- 64GB high speed onboard memory enables upto 4K image capture
- Closeup flash feature for enhanced confident area, low light capabilities

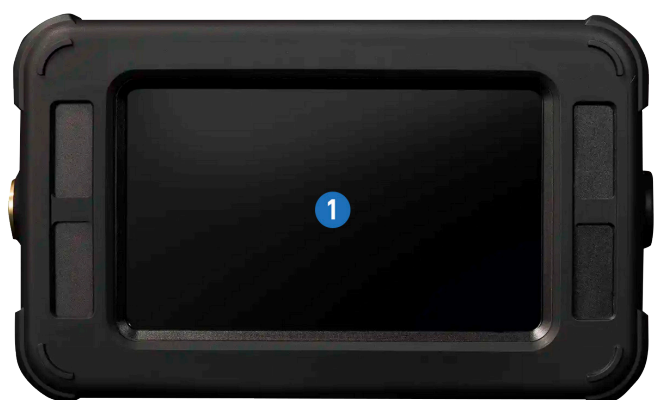

Specifications
